 Subject: **Large Tile-Floor Shower Drains**

On many up-scale or custom home jobs, there are large tile-floor showers, and showers with multiple heads or body spray options. In applications like this, the “standard” 821 shower pan drain might not be adequate for the increased water

flow, and a larger, 3” drain with larger strainer is required. When showers like this are installed, remember to consider the 863 flashing drain – the perfect drain for larger shower applications.

For large shower drain installations, the 863 series is available with 2” or 3” connections, and 5-1/2” round or 5-7/8” square strainers in nickel-bronze, cast 304 stainless steel, and oil-rubbed bronze finish. While the size of drain pipe required is usually up to an engineer or designer, our round (5-1/2” dia) and square (5-7/8” dia) strainers will handle the following flow rates:

- Round: 11.5 GPM with 1/8” allowable head – 16.2 GPM with 1/4” allowable head
- Square: 19.9 GPM with 1/8” allowable head – 27.5 GPM with 1/4” allowable head

Below is a brief list of 863 series drains suited to large shower applications:

PVC Item	ABS Item	Description	Min	Case	List Price
863-435RBR	863-335RBR	Flashing drain, 3" Hub, 5-1/2" Round nickel-bronze strainer, oil-rubbed bronze finish	1	6	\$ 140.00
863-435RBQ	863-335RBQ	Flashing drain, 3" Hub, 5-7/8" Square nickel-bronze strainer, oil-rubbed bronze finish	1	2	\$ 128.50
863-435NR	863-335NR	Flashing drain, 3" Hub, 5-1/2" Round nickel-bronze strainer, satin finish	1	6	\$ 60.50
863-435NQ	863-335NQ	Flashing drain, 3" Hub, 5-7/8" Square nickel-bronze strainer, satin finish	1	2	\$ 80.00
863-435SR	863-335SR	Flashing drain, 3" Hub, 5-1/2" Round SS304 strainer, Shot-blast finish	1	6	\$ 70.50
863-435SQ	863-335SQ	Flashing drain, 3" Hub, 5-7/8" Square SS304 strainer, Shot-blast finish	1	2	\$ 90.00

If a 2” drain connection is desired, simply replace the second numeral after the dash (3) with a 2 – e.g. 863-425RBR.

In general, the 863 Series installs just like the 821 – the same basic steps are involved when installing the 863. Check the website for detailed installation instructions if needed.

If you have any questions, please contact our Customer Service Department or your local Sioux Chief Representative any time.
